### **DETAILED ACTION**

In response to applicant's amendment received 6/15/05, all requested changes have been entered.

### ***Response to Arguments***

The Examiner finds the amended claims and arguments for the claims persuasive. Please see the allowance below for more detail.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Nataliya Dverson (Reg. No. 56,616) on 8/24/05.

The application has been amended as follows:

1. Claim 11 should begin "A computer program ~~product~~ embodied in a computer-readable medium including instructions..."

### ***Allowable Subject Matter***

Claims 1, 2, 4, 5, 10 and 11 are allowed.

The following is an examiner's statement of reasons for allowance:

Copiers are well known to have displays but no prior art of record teaches the final limitation of claims 1 and 4 in that the display shows the process of the printing and reading units and the readiness of the start-command accepting unit when the printing unit is in operation. Also, in regards to claim 5, the no prior art of record teaches the particular type of reading-operation control unit in the fifth limitation of the claim. Various references have already been previously cited to teach and/or suggest the other aspects of the invention, but again, no prior art of record have been found to teach the above-mentioned limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
